# 2027 Colorado Psychedelic Cup Official Submission Rules

1. Purchase a Colorado Psychedelic Cup Grower Ticket from The Psychedelic Club of Denver to submit a sample.
    - Each ticket includes an anonymous ID Code for submission.
2. Samples must be submitted before October 2027.
3. Results will be released continuously with a 1–4-week turnaround time until the Awards Ceremony in 2027.
4. Growers can submit an unlimited number of samples.
5. Submit samples through tryptomics.com/cup and be sure to include an accurate email to receive your invoice, sample intake instructions, and results.
6. **Testing Fees:**
    - Pay the appropriate fee for your selected panels prior to sample submission or when dropping off the sample(s).
7. **Sample Intake Form:**
    - Include the order receipt emailed by Tryptomics with each submission.
8. **Category Selection:**
    - Choose between Cubensis or Non-Cubensis categories.
    - Genetic testing is available to confirm species if desired - $175/sample.
9. **Publication:**
    - Official Sample Results will be published anonymously in 2027.
10. **Disqualification:**
    - Entries may be disqualified for rule violations or practices against fair competition, such as adulterated entries.
11. **Resubmission:**
    - Tryptomics and Psychedelic Club of Denver may reject and request a new sample without an additional fee.

# Sample Requirements

| Sample Type | BasicEntryQuantity | “BuyIt All”Quantity | Price |
|---|---|---|---|
| Fruiting Bodies* | 2 grams | 10 grams | $89 |
| Blob Mutations | 2 grams | 10 grams | $89 |
| Extracts | 0.5 grams | 4 grams | $89 |
| Edible Homogeneity** | 6 servings/1 Package | 18 servings/3 Packages | $249 |
| Cacti Biomass | 2 grams | 10 grams | $89 |
| Cacti Extract/Isolate | 1 gram | 5 grams | $89 |
| Live Cacti*** | 50 grams | 150 grams | $89 |
| DMT Sample Extract/Isolate | 0.5 grams | 4 grams | $89 |

*For fruit samples, we require you to submitanentire mushroom that contains the stemand cap ofthefruiting body. Similarly, we ask for the entire blob sample as well.
**We encourage you to submit an entire package of an edible as we can show the package and calculate per package values off the measured weight.
***We encourage you to dry and prepare the cacti yourself as you would for an extraction batch to be most representative of the cacti.

# Competition Categories

    - Highest Total Analyzed Actives in Non-Cubensis
    - Highest Mescaline Concentration in Cacti
- Highest Total Minor Alkaloids (All Psilocybin Containing Mushrooms)
    - Norbaeocystin
    - Baeocystin
    - Aeruginascin
    - Norpsilocin
- Lowest Total Alkaloids
    - May be confirmed Psilocybe Cubensis via ITS genotyping or equivalent method
- Most Pure Extract
    - Tryptamine
    - Cacti
    - DMT
- Most Homogenous Edible
    - Lowest relative standard deviation between 3 servings of the edible meaning selecting for the most consistent dosed chocolate, gummy, or other edible product.

# Summary

The 2027 Colorado Psychedelic Cup is proudly presented by the Denver Psychedelic Club in partnership with Tryptomics Testing Lab to encourage participation from growers to showcase their unique and interesting psychedelic products. Ensure all submissions follow the rules and guidelines to be eligible for competition. Enjoy the process and contribute to the collective understanding of psychedelic substances.
